REVEAL RADIANT SKIN WITH FRACTIONAL CO₂ LASER TECHNOLOGY

Experience the gold standard in skin resurfacing with our Fractional CO₂ Laser - a breakthrough treatment that combines precision, power, and minimal downtime. Designed to target a wide range of skin concerns, this advanced laser therapy stimulates collagen production and promotes natural healing, leaving your skin smoother, firmer, and visibly refreshed.

GERMAN-ENGINEERED
LASER ARM

**HEALTH CANADA APPROVED DEVICE
LICENSE # 113490**

1639

13485

TECHNICAL CHARACTERISTICS

LASER MEDIUM/ENERGY SOURCE
Fractional CO₂ Laser Therapy System

WAVELENGTH
10,600nm

BEAM DIVERGENCE ANGLE
<7mrad ±10%

WORKING VOLTAGE
110V 60Hz

OPERATIONAL MODE
Fractional mode, normal mode
(CW, Pulse, Single Pulse)

COOLING
Air cooling

OPTICAL GUIDE
Articulated arm

OUTPUT POWER
<30W ±20%

PULSE DURATION
20 μs - 5000μs ±10%

REPETITION RATE
1,000Hz ±20%

LASER OPERATION
Footswitch

NUMBER OF CLEANINGS FOR HAND PIECE
There is no limit during the validity period
