## OFFER YOUR CUSTOMERS

# Honea precision

Honea offers a technique based on a pleasant, gentle cold jet at  $-78^{\circ}\text{C}$  applied to the skin. The rapid drop in skin temperature, known as "thermal shock", stimulates the body's natural reflexes.

## The thermal shock

OF THE TECHNOLOGY HONEA

- Reduces areas of inflammation to decrease oxidative stress.
- Increases tension in collagen fibers.
- Stiffens elastic fibers.
- Activates the microcirculation thanks to the vasomotor effect.

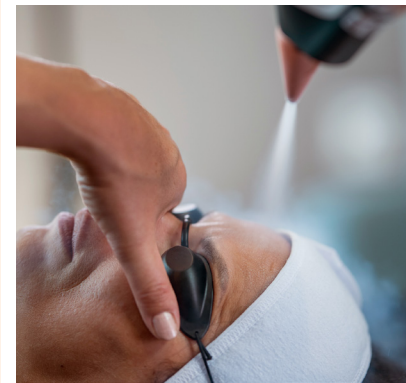

An immediate sensation of freshness, dynamism, energy and well-being.  
Skin is drained, toned, rejuvenated and sublimated.

## Thanks to Honea technology
