**FAST, COMFORTABLE
HAIR REMOVAL
FOR ALL SKIN TYPES
WITH TRIPLE WAVELENGTH
TECHNOLOGY.**

EFFECTIVE ON SMALL AREAS

The ICE Diode Laser features a 12mm x 24mm spot size, ideal for efficient full-body treatments.

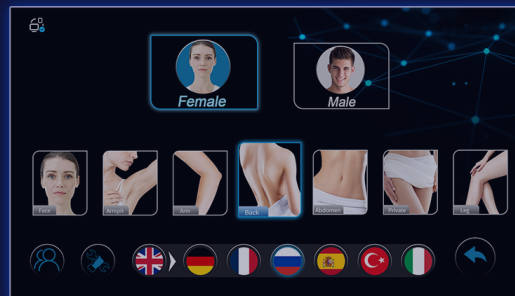

An ergonomic attachment is available for small body areas or spot treatments - perfect for targeting the ears, nose, fingers, and other hard-to-reach areas.

CONVENIENT CONTROL

ICE Diode Laser hand piece has the unique control screen right on the hand piece for your comfort and control.

The touch screen in the handle is instantly synchronized with your laser tower.
